

Let's Talk About Clouds

Cirrus clouds: wispy, feathery, thin, white

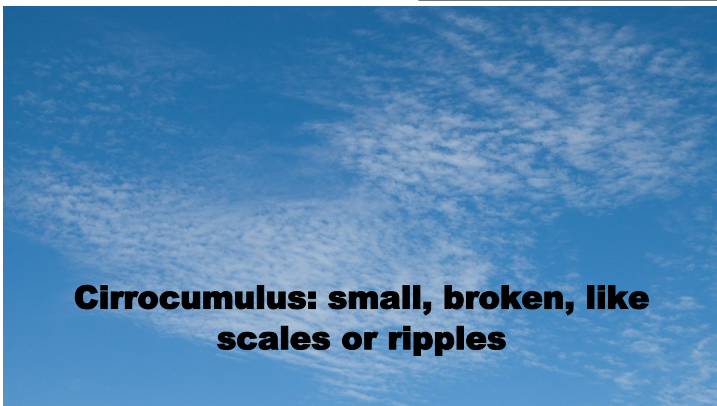

Cumulus clouds: puffy, fluffy, like cotton balls

Look through the hole at the clouds in the sky. What kinds of clouds do you see?

Do you see any shapes in the clouds? Do other people see the same shapes?

Cirrocumulus: small, broken, like scales or ripples

Are the clouds big or small? White or gray?
Fluffy or feathery?
Moving or still?

Stratus clouds: gray, thick, like a blanket
